

2017 Summer Review Packet
For all students entering
Grade 7 Mathematics

This packet contains skills that are essential for success in all course work in grade 7. You are **required** to complete all examples and to neatly show all of your work. You may **NOT** use a calculator for any of this packet. If you have difficulty with a concept, you may use online resource such as: www.khanacademy.com or www.mathstv.com.

This packet is due on **the first day of school** and will be counted as a **homework grade**. As a class, we will review the topics from this packet, so you should make a note of any concepts that were difficult for you.
