"Children obey your parent (in the Lord), for this is right." Eph.6:1

Dear St. Mary Families,

Spiritual

The family is the natural unit of society and the education of children is the responsibility and privilege of the parents.

Our society is built on the success of families and the work of parents to form children in the image and likeness of God. Make no mistake, the examples and distractions that our children are facing in their lives are not helpful in forming children in the image and likeness of God. As parents it is extremely important that we are aware of what is influencing our children and that we counter in every means possible the negative influences.

We must be working to bring about a moral improvement in our society, through our daily action in our daily encounter with others and with our faith in the forefront. Remember if we are not actively forming our children, they will become the product of the society in which we live.

Preparing children for the world they live in is a **most challenging commitment**. If we recognize and live out

God's commandments, to love Him and to love our neighbor, we will give our children the most powerful lesson they can receive.
